

Google Cloud Interconnect

Cloud Connectivity

Digital Realty is a Google Cloud Platform Authorized Services Partner. You can obtain network services that connect your enterprise infrastructure directly to Google over enterprise-grade connections provided by the Digital Realty ecosystem. Google Cloud Platform with Google Cloud Interconnect is available across the Digital Realty national portfolio.

The Power Of The Google Cloud Platform

Google Cloud Platform enables developers and enterprises to build, test and deploy applications on Google's highly-scalable and reliable infrastructure with the choice of computing, storage and application services for web, mobile and backend solutions.

Digital Realty customers can leverage a private business interconnection to the Google Cloud Platform's products in conjunction with Digital Realty's Cloud Xchange, which meets the needs of enterprises, cloud providers and network providers by bringing the combination of services in a unique ecosystem within Digital Realty data centers.

With tailored hybrid cloud solutions available through the Digital Realty Cloud Xchange, organizations can optimize application-specific sensitivities around securing data, system performance, and operational control with the flexibility to decide which technologies best support business objectives.

Direct and Secure. Digital Realty's Google Cloud Interconnect is an immediate path to Google's network, which then gives Digital Realty business customers a secure and direct connection to the Google Cloud Platform. The Google Cloud Interconnect not only allows access to a reliable and secure, enterprise-grade connection to the Google Cloud Platform, it also offers robust connectivity to the Internet via Digital Realty's diverse Marketplace ecosystem.

Performance & Reliability. Digital Realty customers benefit from Google Cloud Interconnect with business access to Google Cloud Platform as it minimizes routing issues, network congestion, and latency to deliver a more consistent network experience.

Google Cloud Interconnect gives Digital Realty customers access to Google Cloud Platform with products like Google App Engine, Google Compute Engine, Google BigQuery, Google Cloud Storage, and many others.
