POWER

- 16 MVA of total power;
- Dual diesel fuel storage tanks with 48 hours of fuel autonomy without refueling;
- Tri-bus redundancy system (three power lines servicing each data hall).

COOLING

- Dual coil cold water chiller system;
- Isolated technical corridors for equipment maintenance;
- Airflow using a 1 meter raised floor.

CONNECTIVITY

- Connectivity by proprietary fiber optic network and with main carriers;
- Dedicated Telecom meet me rooms;
- Carrier Neutral;
- PIX São Paulo and direct connection with PIX Campinas.

SECURITY

- 24/7 Monitoring using CCTV cameras with high-definition automatic movement detection, digital recording and image storage for more than 90 days;
- Dual authentication for access control using biometric and magnetic cards;
- 24x7 on-site monitoring and security team.

Strategic location

Ascenty chose São Paulo to build its sixth data center. The site's special location is the ideal choice for companies looking for security and availability in order to host their data, with easy access to the country's main highways.

 Avenida Roberto Pinto Sobrinho, 350, Osasco - São Paulo.

About Ascenty

Ascenty is Latin America's largest data center provider with 16 data centers currently in operation or under construction. The company was founded in 2010 and focuses on building and operating world-class data centers, serving some of the world's largest technology companies.

The company's Data Centers are linked by over 4,500 km of proprietary fiber-optic network.
