Platform DIGITAL®

DIGITAL REALTY®

METRO BRIEF

Toronto

Scaling Digital Business with data-centric architecture and a connected data community approach

TORONTO is an important business hub, forecasted to be among the highest data gravity growth in Banking & Financial Services and Insurance industries.

136%
CAGR through 2024
Data Gravity Intensity Growth

INSIGHTS
Data Gravity inhibits enterprise workflow performance, raises security concerns, and increases costs, all complicated by regulatory requirements and other artificial constraints. It requires a connected community approach between enterprises, connectivity, cloud and content providers integrating core, cloud and edge at centers of data exchange, implementing a secure, hybrid IT and data-centric architecture globally at points of business presence.

CHALLENGES
Current backhaul architecture cannot address enterprise Data Gravity needs, including:

- Data exchange across multiple internal/external platforms
- Local data copies and ability to run performant analytics across each global point of presence

SOLUTION
To enable the ever-changing data, control and networking demands of global enterprises, a purpose-built solution is required. The data-centric architecture of PlatformDIGITAL® offers tailored deployments at any size and scale and right-sized connectivity options. The Toronto metro enables diversified, neutral connectivity with access to key ecosystems, connectivity gateways, and security and resiliency infrastructure.

DATA GRAVITY INDEX
DGx™ quantifies and predicts the intensity and gravitational force of enterprise data growth across more than 50 metros globally. The patent-pending formula, measured in gigabytes per second, provides a relative proxy for measuring data creation, aggregation and processing.

The largest global provider of multi-tenant data center capacity.*

Toronto Connected Campus
Connectivity gateway for global enterprises

1 Century Place

TORONTO

151 Front St (Coming Soon)

Legend:
- ■ Data Hub
- ■ Network Hub
- ■ Control Hub
- — Lit Fiber Connectivity

ECOSYSTEM CONNECTIVITY

The Toronto campus offers access to a growing ecosystem of network, IT and cloud partners and providers.

Metro Connectivity
- Lit Fiber
- Ethernet: 100Mbps, 1G, 10G
- Wave: 10G, 100G

Multi Cloud Access
- Service Exchange

Dedicated Internet Access
- IP Bandwidth
