Solving the Most Complex Hybrid IT Problems for Enterprises Globally

As the largest provider of multi-tenant data center capacity, Digital Realty delivers the full spectrum of data center, colocation and interconnection solutions to support the world's leading enterprises and service providers — from cloud and information technology services, communications and social networking to financial services, manufacturing, energy, healthcare and consumer products.¹

We’ve invested $23 billion to build our global data center platform, PlatformDIGITAL®, located in convenient metro and edge markets.²

² Aggregated total of all capital expenditures in data centers since company inception.
PlatformDIGITAL® is the meeting place for data collaboration. It provides customers with a trusted foundation and proven Pervasive Datacenter Architecture (PDx™) solution methodology for scaling digital business and efficiently managing Data Gravity challenges.

We provide the coverage, connectivity, capacity and control to enable digital businesses. A trusted and protected place where businesses collaborate and innovate around data. Our customers can deploy, host, connect, implement and orchestrate based on their needs. Backed by the financial strength of Digital Realty’s $53bn enterprise with investment grade ratings, resiliency is at our core.
