

Internet Exchange

Interconnection

The Digital Realty Internet Exchange (DRIX), is a neutral, privately-owned Internet exchange, providing a high performance Internet peering platform that allows Carriers, ISPs, Content Providers, Gaming Providers and Enterprises to quickly and easily exchange IP traffic.

Digital Realty Internet Exchange helps your Internet connected business reduce operational costs, improve network performance, and add another layer of network resilience; all over a single world-class exchange platform. Digital Realty allows participants to establish a presence on DRIX quickly, easily and at a competitive price. This is an extension of the underlying Digital Realty strength in connecting diverse networks and leverages our strong history of supporting IP exchanges located in Digital Realty facilities.

DRIX Key Features

GigE, 10G and 100G ports available —

Capacity as you grow

LAG ports supported — Bonded ports for further capacity flexibility

24/7 NOC support — Network engineers available for speedy resolution

Dual stack IPv4/ IPv6 support

— Future-proofs your networking environment

Route servers — Simple configuration management

Public VLAN — Access to all peering participants

Customer portal — Visibility into traffic stats, participant lists, and more

Rapid, flexible provisioning — Connectivity on your schedule

Our Differentiators

Unique peers — Peering partners that you won't find on other exchanges

Member count — More destinations to send more traffic

Available in high density meet-me-rooms — More options for your connectivity needs

Connectivity from select Digital Realty facilities within the metro to the DRIX platform included at no additional charge

Benefits

Simplified connectivity — Access to multiple peers over one physical port

Improved performance — Local connection to your traffic destinations

Redundant connection to IP transit — Alternate paths for network resiliency

Reduced IP Transit costs — Low, flat monthly fee

One stop solution — maintain control over the sales and billing relationship with your customers

Ease of management — with your Digital Realty colocation footprint

Digital Realty Internet Exchange Availability*

*Select buildings can access DRIX in these metros via network extension.
Additional connectivity services may be required.
