

# Isando Campus

Johannesburg, South Africa

## Why Johannesburg's Isando Campus?

With over 45,000 square meters of space and master planned for 40MW available IT power, clients have room to grow. With its world-class data center infrastructure and network dense ecosystems, this location forms a vital part of the African Internet's backbone, allowing customer access to numerous service providers and clouds.

Whether you are serving up Internet content, financial data, or cloud-

based services, the facilities in the Isando Campus provide an efficient, secure, and resilient location for clients to address their increasing power and space needs.

## Location

Located in Ekurhuleni, the greater Johannesburg Metropoli's trade and industry hub, the Isando Campus is strategically positioned to serve the local and African market as the interconnection hub for cloud, content and connectivity. The Isando Campus provides the cloud on-ramps for Amazon, Google and Microsoft's Azure.

“We ensure our clients have the flexibility to scale and take advantage of the digital transformation across sub-Saharan Africa. We continue to invest significantly in the region's ICT infrastructure and have built Africa's largest data centre platform.”

Jan Hnizdo, CEO of Teraco
