Crawley Data Centres

Situated in the largest business park within the regional Gatwick Diamond development area, the Crawley campus offers two of the closest scale data centres to London's Gatwick Airport. Just a short journey by road from the M23 motorway and 35 minutes from central London's Victoria and London Bridge stations, Crawley provides accessible, bespoke data centre solutions.

With its significant power availability, high energy efficiency and diverse fibre routes to metro hubs and European links, Crawley offers scale and connectivity to both regional and global companies.

- Unrivalled proximity to Gatwick Airport
- Bespoke customer solutions
- Excellent amenities
- Direct customer network connectivity or via POP rooms
- A 'BREEAM Excellent' sustainability assessment
- High density capacity
- Perimeter fencing
- Dedicated car parking at both sites

London Metro Connectivity

Crawley is an interconnected part of the **London Metro** which connects eight of Interxion's colocation sites across the London Metropolitan area, enabling reliable connectivity direct to your partners, suppliers and other Interxion customers. Connect to The City data centres, as well as The Docklands, providing secure access to cloud on-ramps and geographically diverse options for back-up and disaster recovery.

Unlock your global IT strategy from London

Our global infrastructure solution, **PlatformDIGITAL®** enables businesses to interconnect global workflows from anywhere in the world, fulfilling their connectivity needs quickly and efficiently. With access to over 700 connectivity providers, key hyperscale public clouds, local cloud providers, network density and interconnection services customers are able to deploy their IT infrastructure in the buildings and locations of their choice. All benefit from 99.999% uptime, implementation and service consistency across the world and the highest level of physical and network security.

Crawley Technical Overview

Building

Size
- Unit 1: 11,283m^2
  4x 1,600m^2 data halls
- Unit 2: 10,140m^2
  2x 1,400m^2 and 2x 1,300m^2 data halls

Floor
- Unit 1: Solid
- Unit 2: Raised - all overhead services

Power
- Total power: 72MVA
- 2 utility suppliers
- UPS redundancy: N+1
- Own sub-station, 132 KV
- N+1 diesel generators
  Unit 1: 8 + 2PBB generators
  Unit 2: 7
- 99.999% uptime SLA

Cooling
- Cooling configuration: Indirect Adiabatic Air Coolers
- Cooling redundancy:
  Unit 1: N+2 per data hall
  Unit 2: N+1 per data hall

Fire Detection
- Very Early Smoke Detection Alert (VESDA)
- Low pressure water mist fire suppression system

Security
- 24/7 CCTV inside and out, 90 days recording
- Anti-tailgate entry
- Card readers
- Biometric readers in data halls and POP rooms
- Perimeter fencing

Connectivity
- Diverse cable routing into facility
- Direct-to-space network connectivity or via POP room
