

HKG 11  
Kwai Chung  
Kwai Chung, Hong Kong

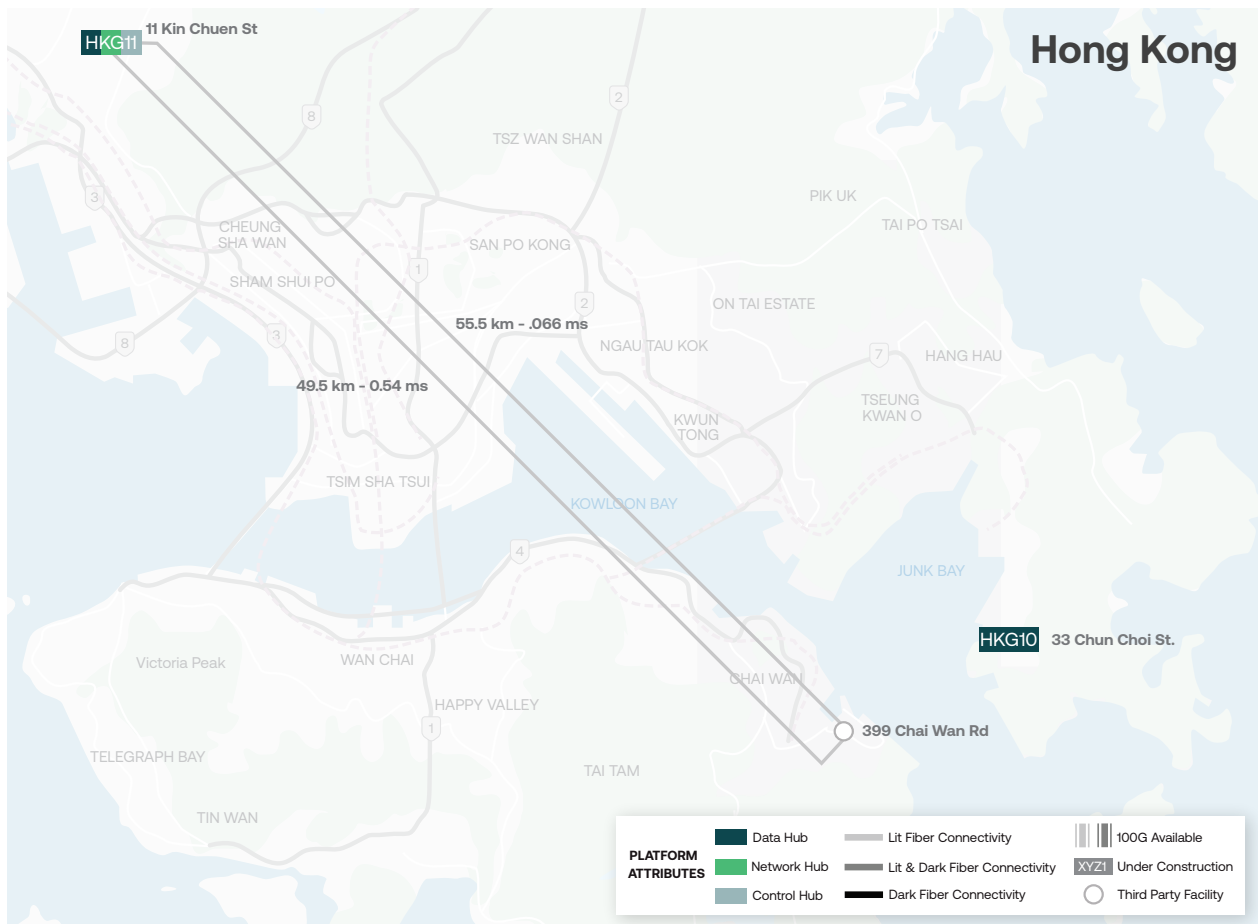

# HKG11 at a Glance

Digital Realty Kin Chuen (HKG11) is strategically located in Kwai Chung, Hong Kong's developing data center cluster and primary diversification location outside of Tseung Kwan O.

The HKG11 facility is built with a total of 12 floors, eight of which are data hall floors.

The 21,000 square meter building delivers up to 21 MW of critical IT capacity to support the development of Hong Kong as a data hub and drive the adoption of cloud computing services and solutions in the region.

## Facility Overview

- 12-Storey Building
- Up to 3,000 high power density racks
- 1500 kg/m<sup>2</sup> structural loadings
- UTI Tier III + design with designed PUE 1.44
- Cloud, FSI and enterprise ready
- Dedicated, Diverse and Redundant 132kV and 11kV utility power supplies and 11kV power switch rooms
- 21 MW IT load (18 MW for hyperscale & and 3 MW for Colocation)
- 50 MVA (Primary Utility Supply) + 24 MVA (Secondary Utility Supply), expandable to 50 MVA
- N+1 chillers & N+2 CRAH

## Connectivity Ecosystem

Digital Realty's carrier neutral Hong Kong data centers enable enterprise customers to easily connect to carriers and cloud providers on campus. Leveraging the Metro Connect service from Digital Realty, enterprises can further expand their connectivity ecosystem with access to 450+ service providers including all key global cloud service providers, global carriers, SDN and connectivity providers in 3rd party data centers in a simple and cost effective manner.

# The Digital Realty Advantage

1. Global consistency across a variety of configurations ensures operational reliability and consistency
2. Expert remote hands services for on-demand assistance with hardware tasks
3. Physical and virtual interconnection products to enable local and international access to business partners, cloud and network service providers
4. Stringent security controls with extensive security infrastructure, including CCTV, biometric / card access, local SOC (Security Operation Control) personnel
5. Compliance and certifications to support industry and data protection requirements, including ISO, SOC and PCI
6. Flexible power density configurations to meet application requirements

## Secure

Designed to ensure mission-critical data is always secure and available

## Connected

Access the ecosystems that power your business through a simple and open platform

## Scalable

Future-proof your deployment with significant capacity for your growing requirements

## Flexible & Efficient

Manage your IT environment in real time, less time and operation costs on data center management

## Space

- Cabinets from 42U to 52U
- Cages starting at 100 sq.ft.
- Private suites that are fully customizable

## Power

- Distributed redundant N+1
- AC power with protected voltage
- Backup generators to support 100% uptime

## Reliable Services

- Scheduled and on-demand services available
- Remote hands services at all sites
- 24 x 7 x 365 coverage
- Full Control over your infrastructure

## Interconnection

A carrier-neutral variety of connection methods to meet local and cloud strategies:

- ServiceFabric™
- Cross Connect
- Metro Connect
- IP Bandwidth

## About Digital Realty

Digital Realty brings companies and data together by delivering the full spectrum of data center, colocation and interconnection solutions. PlatformDIGITAL®, the company's global data center platform, provides customers with a secure data meeting place and a proven Pervasive Datacenter Architecture (PDx®) solution methodology for powering innovation and efficiently managing Data Gravity challenges. Digital Realty gives its customers access to the connected data communities that matter to them with a global data center footprint of 300+ facilities in 50+ metros across 28 countries on six continents.
