

An ideal home for your applications infrastructure

In der Steele 37b, 40599 Düsseldorf

Located in the Digital Park Düsseldorf, the data center DUS3 offers the latest secure, scalable infrastructure especially designed for failsafe, efficient and sustainable operation of mission-critical applications and systems. Connectivity, power and security are fully provided and controlled by Digital Realty.

The cloud- and carrier-neutral data center campus Düsseldorf is also home to the DE-CIX and ECIX (Megaport) Internet Exchanges. With its high density of connectivity and cloud providers DUS3 has become a stronghold for cloud computing in the Rhine-Ruhr metropolitan area.

At Digital Park Düsseldorf, DUS3 offers a multiple redundant infrastructure to meet all requirements in terms of reliability and performance. The data center provides redundant power supply and airconditioning and supports even the most demanding high-density configurations.

The campus is equipped with the most advanced alarm and monitoring systems.

At a Glance

- 5,400 m² IT-Space
- 9,600 kW IT-Capacity
- 100 Carriers/ISPs, ECIX (Megaport) and DE-CIX Internet Exchanges on campus
- High-availability SDN connectivity platform
- Trained security and technical staff
- Advanced fire detection and suppression systems
- ISO 27001
- ISO 22301
- ISO 9001
- ISO 14001
- ISO 50001
- PCI-DSS

DUS3: Technical specifications

Data Center	<ul style="list-style-type: none">• More then 5,400 m² equipped space with 9,600 kW IT-Capacity• Only 30 minutes from the airport, 15 from the city center and 5 minutes from the highway• Modular and redundant set up of fault-tolerant infrastructure• Trained technical staff on campus 24x7
Connectivity	<ul style="list-style-type: none">• Dual-entry, redundant fibre connections• Access to over 100 carriers, NSPs, IX-Provider and ISPs• Direct access to the DE-CIX and ECIX (Megaport) Internet Exchanges• Redundant Meet-Me-Rooms• Structured Cabling and Cross-Connect connections upon customer request• ServiceFabric™ platform: connectivity to cloud service providers, L-2 port-to-port connections and many other services
Power	<ul style="list-style-type: none">• N+1 UPS redundancy• N+1 generator backup with SLA on refuelling• 16 MVA high-density power configurations• Up to 99,999% availability• 2N configuration
Security	<ul style="list-style-type: none">• Trained security staff on-site (24x7)• Multiple physical security layers including contactless key cards, biometric access system, CCTV, man traps• Collision guards• 24x7 controlled access
Controlled Environment	<ul style="list-style-type: none">• Advanced smoke detection systems in every customer room (VESDA)• Nitrogen-based fire suppression system• Temperature and humidity in line with ASHRAE recommendations• Minimum N+1 CRAC redundancy per room• Entire facility infrastructure monitored 24x7 (Chiller, CRAC, Fire Panels, Generator, UPS etc.)
Services	<ul style="list-style-type: none">• Colocation: private cages, private rooms and cabinet space• Remote Hands: 24x7 installation and maintenance• Extendable to 300+ data centers worldwide via a single service contract• Conference and office space available• Multiple connectivity management and backup services• Customer Lounge• Self-service customer portal• Multilingual customer service (EMEA Command Center)
Energy Efficiency and Sustainability	<ul style="list-style-type: none">• 100% power from renewable sources• Phased modular architecture optimises Power Usage Effectiveness (PUE)• Data centers operated to the highest energy efficiency standards• Innovative LED-lighting and motion detectors• LEED Certification• Planned use of existing waste heat generated by the data centers• Strict separation of warm and cold air flows
