

Brussels' renovated data centre offers an ultra-secure, scalable infrastructure with best-in-class connectivity

Digital Realty's Brussels data centre campus is located just 5 minutes from Brussels Airport. BRU1 offers 5,000 m² of space and access to over 100 carriers/ ISPs and many cloud providers.

Rely on one of the most secure and flexible facilities for your mission- critical applications. Benefit from the highest security standards and latest technology to ensure availability and performance. BRU1 was designed with a focus on energy saving and modular architecture.

Cost-effective air conditioning, advanced fire and water detection systems and a multi-level security concept protected by five physical security barriers as well as the most advanced alarm and monitoring systems make BRU1 one of the most secure data centres in Belgium.

Innovative companies interconnect at Digital Realty

Increase your competitiveness with the right infrastructure in the right place.

Our Brussels campus attracts a wide range of businesses and provides extraordinary flexibility to meet your growing space and power requirements. BRU1 offers a number of ways to connect with the outside world. This includes direct access to major cloud platforms such as AWS, Google, MS Azure, Oracle, Alibaba, Salesforce, City Cloud and IBM, a variety of local clouds, and free connections to the Belgian National Internet eXchange BNIX.

Digital Realty Brussels is the only facility in Belgium that hosts the Cloud network nodes (PoP) of Microsoft Azure, AWS and Google Cloud, providing the most direct access to these clouds?
