

Dublin's data centre campus offers an ultra-secure, scalable infrastructure with best-in-class connectivity

The only English-speaking member of the Eurozone, Ireland combines a pro-business approach, an attractive corporate tax rate and a highly educated workforce with a prime location on the axis between the American and European continents. Small wonder it's the destination of choice for US-based and other international companies that want to establish a European presence.

Close to Dublin city centre you'll find our network-neutral data centre campus. It's the ideal location for national and international businesses that want to offer services anywhere in Europe and value the peace of mind that comes with colocating in one of the most secure, reliable and highly connected facilities in the area.

Our interconnection hub is home to the Ireland's Internet Neutral Exchange (INEX) and to over 45 leading national and international

carriers, Internet service providers (ISPs) and content distribution networks (CDNs). Whatever the nature, size and reach of your business, you're assured of reliable, cost effective connectivity throughout Europe, and the fastest performance for your applications.

Innovative companies interconnect at Digital Realty

Increase your competitiveness with the right infrastructure in the right place.

Our Dublin campus attracts a wide range of businesses and provides extraordinary flexibility to meet your growing space and power requirements. DUB3 offers a number of ways to connect with the outside world. This includes direct access to major cloud platforms such as AWS and Microsoft Azure, a variety of local clouds, and connections to Ireland's Internet Neutral Exchange (INEX).
