

Vienna's data centre campus offers an ultra-secure, scalable infrastructure with best-in-class connectivity

Vienna is one of Europe's best connected cities, and is home to VIX, Austria's largest Internet exchange. In the North of the city, just 25 km from Vienna International Airport and public transportation within walking distance, you'll find Vienna's largest and best connected data centres.

Our Vienna data centre campus puts your systems at the heart of the Central and Eastern European digital economy. We host a robust ecosystem of carriers, as well as thriving cloud, digital media and financial communities.

Whatever the nature, size and reach of your business is: be assured of the best connectivity for your needs and the fastest performance for your digital and hybrid-IT deployment needs.

Innovative companies interconnect at Digital Realty

Increase your competitiveness with the right infrastructure in the right place.

Our Vienna campus attracts a wide range of businesses and provides extraordinary flexibility to meet your growing space and power requirements. VIE1 and VIE2 offer a number of ways to connect with the outside world. This includes direct access to major cloud platforms such as AWS, Google, a variety of local clouds, and connections to Vienna Internet Exchange VIX.

Digital Realty Vienna is the only facility in Vienna that hosts the Cloud network nodes (PoP) of AWS and Google Cloud, providing the most direct access to these clouds?

At a glance

- Vienna - located in the heart of Europe
- 30,000 m² customer space
- 99.999% uptime SLA
- Access to 70+ Carriers ISPs
- Direct access to VIX
- 100% renewable energy
- 24/7 technical support
- Cloud-PoPs of AWS and Google Cloud
- Direct peering to VIX and NetIX
